

# Wendl & Lung since 1910

Tradition – Innovation

*Mod. 161 – Professional I*  
*Mod. 178 – Professional II*

## *Technical data*

- » The soundboard is made out of matured spruce wood embedded in a precisely glued back frame construction – creating a robust and durable instrument with a full, balanced and rich sound.
- » Climate-proof multi-laminated pin block in combination with a high-tech CNC-produced iron plate assures excellent long-term tuning stability.
- » This unique and innovative construction creates the distinctive Wendl & Lung tone.
- » Our Wendl & Lung precision piano action allows well balanced playability for demanding concert pianists.
- » The keyboard is highly resistant to changes in humidity levels.
- » The slow-closing fallboard is child-proof and seamlessly integrated into the case design.
- » The large caster rolls and the sturdy pedal system highlight the exceptional quality of this instrument.

*Played worldwide in conservatories and academies of music,  
highly rated by technicians and performers alike!*
